

Dear guests,

**We warmly welcome you** and we are pleased that you have decided to take a vacation at Aquarius despite the current situation. Our main concern is to guarantee you a relaxed and carefree vacation. Therefore, we have tried to adapt our infrastructure and organization in the best possible way so that you have the least amount of restrictions during your stay.

Here are some basic rules for a harmonious coexistence at the campsite:

The **most important rule** (for people older than 6 years) is **wearing a face mask** when you are in a public area. You do **NOT need a face mask** on your pitch or mobile home, on the beach or in the children's pool, if you are consuming something in the bar or restaurant and if you are doing sports or any other activity where wearing a mask is not compatible.

The second basic rule is to keep the **safety distance of 1.5m**. To make this as easy as possible, we have made a series of structural and organizational changes to avoid unnecessary crowds. You will see that in the **large toilet building** we now have **separate entrances for the toilets and the shower area**. In the restaurant area, we have also separated areas: from now on, you can only **access the Restaurant through the entrance in front of the Reception** and exit through the terrace. To **get to the "Take-Away"** you must go **through the ping-pong room** and also go out using the terrace of the Restaurant or return through the ping-pong room.

We have **put up signs** in all community facilities and public areas, where you can see the recommendations and the **maximum number of people** that should ideally be in each one. Please respect these recommendations and avoid those areas that have reached the limit of their capacity. **Do not wait inside buildings**, but in designated waiting areas outside.

If you want to protect yourself even more, you can do it by disinfecting your hands using one of the countless **hydroalcoholic gel dispensers**, distributed throughout the campsite.

The **animation program** and the **weather forecast** can be seen by **scanning a QR code** on the mobile or tablet. Likewise, with the laptop at [www.campingaquarius.es](http://www.campingaquarius.es)

The **menus of our food areas** can be accessed by **scanning a QR code** on the mobile phone (see the back of this page). You can save your order in advance using the "shopping cart" to simplify the order with the waiter. The app also translates your order by tipping the country's flags. However, if you prefer a traditional menu, they are also available.

Table **reservations** are also accepted **by phone**: for the Aquarius Restaurant by calling +34 972 550 181 or the Marlin-Beach-Bar at +34 651 827 388. You can also **order your take-out food** on the Restaurant's phone number and pick it up at the desired time.

In the **Supermarket** you can obtain an order form for breakfast products, which you can complete before 5:00 p.m. and deposit it in the designated mailbox. The next morning, an employee will take the order to your pitch or mobile home.

Finally, for hygiene reasons we recommend **cashless payment**. You can use our **MoneyCard**, which can be purchased or recharged at the Reception.

We wish you a relaxed and carefree stay and are always at your disposal for questions or suggestions.

*Sincerely,*

*Markus Rupp* (Managing Director)
